

Critical Response Solutions

An emergency response is a structured, immediate response to a dangerous or unexpected event. The goal of an emergency response is to reduce the impact of the event on the environment, people, and property. Flying B Rental LLC understands the importance of a prompt, safe response so that our customers can focus on the emergency at hand and not the logistics. Let Flying B Rental handle the logistics so you can focus on saving people, property and the environment.

Meet Our Leadership Team

Clark Burton
Owner - Flying B Rental

With over 13 years of distinguished service in law enforcement, including roles in patrol, criminal investigations, and administration as the Chief Deputy of the Union County Sheriff's Department, Clark Burton brings a wealth of expertise to every emergency response. He has led critical operations as Commander of the Sheriff's Office Search and Rescue Team, served as a SWAT Operator, and applied advanced technical skills as a Forensic Crime Scene Technician.

Clark also holds state certifications as an Emergency Medical Technician (EMT) with 15 years of experience, an Arkansas State Certified Firefighter through the Arkansas Fire Academy, and a Certified Hazardous Materials Technician.

This diverse and specialized background equips Flying B Rental to collaborate effectively with federal, state, and local officials, delivering unmatched services in emergency response and crisis management.

Johnny Reed
Manager

Johnny brings over a decade of hands-on experience in the rental industry, making him uniquely attuned to the needs of customers. With a strong foundation and extensive knowledge in various trades, Johnny understands the challenges that customers face in their projects, whether it's construction, repairs, or emergency response. His technical expertise allows him to recommend the best equipment solutions, ensuring reliability and efficiency.

Johnny's commitment to customer service, combined with his practical experience, makes him a trusted resource for clients seeking guidance and dependable equipment for their tasks.

Our Work Process

Our Goal is to Address Critical Response Needs

To provide reliable, high-quality equipment and exceptional service to support emergency response efforts, ensuring rapid deployment, operational efficiency, and seamless collaboration with federal, state, and local agencies. Our mission is to be a trusted partner in critical situations, delivering solutions that enable responders to protect lives, property, and communities effectively.

Why Choose Us

01 Rapid Response

Strategically located offices ensure quick delivery and setup of essential equipment.

02 Expert Team

Skilled professionals provide guidance on the best solutions for your situation.

03 Reliable Equipment

Well-maintained and tested equipment guarantees dependable performance under pressure.

04 Custom Tailored Packages

Tailored packages, including lighting, climate control, and sanitation options, for unique challenges.

"If, during the years to come, any disaster should befall our arms, afloat or ashore, and thereby any shame come to the United States, remember that the blame will not be upon those who have advocated preparation; it will be upon those who have advocated unpreparedness."

- Dwight D. Eisenhower

We provide reliable tools and equipment to help you tackle unforeseen challenges and emergencies. From generators to portable sanitation, we deliver solutions to keep your operations running smoothly when you need them most.
